Our Kehila Hakedosha is fortunate to have people like Mrs. Alana Weinberg, who when she sees a need arise, addresses it.

Mrs. Weinberg has created Binyan Yisroel, a new school that is helping our dear children who silently suffer with language based learning disabilities. Mrs. Weinberg has a true understanding of this population and the specialized education they require in order to be successful in their learning. Binyan Yisroel, b'ezras Hashem, is enabling children who were unable to thrive in our current Mosdos, or who unfortunately had to attend a non-Jewish facility, to learn and flourish in a Makom Torah geared toward their needs.

I was Zoche to visit Binyan Yisroel and can personally attest that the Rebbeim and Moros are investing their Kochos into helping our beautiful children succeed in Limudei Kodesh and Limudei Chol.

As a community, we must support Mrs. Weinberg's endeavor with heart, soul and sustenance. She is undertaking a huge personal commitment of time and resources to benefit our Kehilla. And she is stepping up so that every parent's dream of raising Bnei and Bnos Torah, who are looking forward to the next day of school and another day of growth, happy with their school and proud of their accomplishments can be realized in their children.

I urge you to support Mrs. Weinberg in every way possible. In turn, I bentch you that you will be Zoche to Nachas from your own families.
